PROFESSIONAL SUMMARY

AI & ML engineering student at BVRIT Hyderabad (CGPA: 9.38) who believes the best way to learn is to build. Selected as a GSSoC'26 Contributor on the AI/Agents Track, and competed at IIT Kharagpur's COMPOSIT Ideathon and SUDHEE 2026 among 220+ national teams. Qualified in the first round of the Great AppSec Hackathon 2026, organised by the Cybersecurity Centre of Excellence (a joint initiative of DSCI and Government of Telangana). Built full-stack and front-end prototypes (TalentSetu, Vyuha, TAZVI) and have hands-on exposure to Generative AI, Python, LangChain, Multimodal AI and prompt engineering. Certified by Google Cloud and Anthropic, with additional training in cybersecurity and entrepreneurship through IIT Hyderabad's Lean Startup workshop and ALEAP's 15-day SDP Training for Innovators under the RAMP Program. Always learning, always building.

EDUCATION

BVRIT Hyderabad College of Engineering for Women — Aug 2025 – Present
- B.Tech – CSE (AI & ML), 2nd Year • CGPA: 9.38

Narayana Junior College, Hyderabad — 2023 – 2025
- Intermediate – MPC • 96.1%

Prachin Global School, Hyderabad — 2022 – 2023
- Secondary School (Class X) • 89.61%

TECHNICAL SKILLS

Languages:	C, Python, Java, HTML, CSS, JavaScript
AI / ML:	Generative AI, Large Language Models (LLMs), LangChain, Multimodal AI, Prompt Engineering, Claude AI, AI Agents
Security:	Core Cybersecurity Fundamentals, Application Security (AppSec) Hackathon Experience, Secure System Design Awareness
Tools & Other:	Git, GitHub, Web Development, DSA (Data Structures & Algorithms), Problem Solving

PROJECTS

TalentSetu — AI-Powered Inclusive Talent Platform — SIH / Hackathon Prototype
Node.js • Express • HTML/CSS/JavaScript • JSON | github.com/VIBHA-2612/TalentSetu_project
- Built a full-stack prototype connecting India's offline artisans, tailors, tutors and home entrepreneurs to businesses: a Node.js/Express backend that also serves a 9-page front end.
- Implemented four rule-based AI engines behind REST endpoints (fair pricing, portfolio/bio generation, skill matching, phrase-based translation), each isolated so it can later be swapped for an LLM call without changing the API.
- Delivered three live demo screens that run the full loop: talent passport → AI match → cross-language chat.

Vyuha — AI Skill Verification for iGOT Karmayogi — SIH26101 Prototype
HTML • CSS • JavaScript | github.com/VIBHA-2612/VYUHA
- Designed and built an interactive 8-step prototype (SSO login → assessment → gap analysis → course recommendation → learning sync → AI quiz generation → human review → verified skill) for an AI-enabled learning platform for India's Official Statistical System.
- Wrote the whole walkthrough as one responsive, dependency-free page with progress tracking, auto-play demo mode and keyboard navigation.

TAZVI — Startup Pitch Website (Chill. Move. Deliver.) — 2026
HTML • CSS • JavaScript • Python • GitHub Pages | github.com/VIBHA-2612/Tazvi-Chill.Move.Deliver
- Co-built a 19-page static website from the team's pitch deck, generated by a Python build script so all pages regenerate from a single content file.
- Documented local run, GitHub Pages / Netlify deployment, licensing and photo-permission steps; ran on relative links so it works offline.

Personal Portfolio Website — 2026
HTML • CSS • JavaScript | github.com/VIBHA-2612/Portfolio
- Designed and built a personal portfolio showcasing projects, skills and achievements as an AI/ML student, with a downloadable resume.

C Programming Practice — 2025 – 2026
C | github.com/VIBHA-2612/C-Language
- Maintain a public repository of C programs (14 commits) covering loops, functions, arrays, pointers and basic data structures, organised by topic with a written C Programming Learning Record.

ACHIEVEMENTS & COMPETITIONS

Great AppSec Hackathon 2026 – First Round Qualifier 2026

Cybersecurity Centre of Excellence (a joint initiative of DSCI & Government of Telangana)

- Successfully qualified in the first round of the Great AppSec Hackathon 2026, a cybersecurity hackathon focused on application security.
- Received a Certificate of Participation signed by Dr. Sriram Birudavolu, CEO, Cybersecurity Centre of Excellence.

GSSoC 2026 – Contributor / Mentee (AI & Agents Track) 2026

GirlScript Summer of Code

- Selected as a contributor on the Open Source + AI/Agents Track out of thousands of applicants nationwide.
- Received a Certificate of Participation from GirlScript Foundation and a separate AI Track certificate (Smartly × GS Labs).

COMPOSIT Ideathon – 31st Edition 2026

Society of Metallurgical Engineers, IIT Kharagpur

- Qualified for the offline round of the national-level ideathon at IIT Kharagpur as a first-year student.

SUDHEE 2026 – National Level Hackathon Feb 2026

Chaitanya Bharathi Institute of Technology, Hyderabad

- Competed among 220+ national teams; built and presented a solution before a panel of judges as a first-year team.

Turing Cup 2K26 – National Level Coding Contest 2026

VNR Vignana Jyothi Institute of Engineering and Technology

- Member of team '404 Error' (BVRIT-H); tackled DSA-based algorithmic challenges.

Prompt Wars – Engineer's Day 2026 Sep 17, 2026

BVRIT Hyderabad College of Engineering for Women

- Participated in a prompt-engineering event organised under Engineer's Day 2026.

TEDxBVRIT Hyderabad – Participant Feb 21, 2026

BVRIT Hyderabad College of Engineering for Women

- Engaged with innovative ideas and diverse perspectives at the independently organised TEDx event.

Fusion Fest – Fusion Rounds (Engineer's Day) Sep 15, 2025

BVRIT Hyderabad College of Engineering for Women

- Demonstrated technical knowledge and collaborative problem-solving in the CSE-AIML domain.

Earlier Achievements

- ***Silver Medal, International Mathematics Olympiad (IMO)*** — 2015, international-level mathematics competition.
- ***School Captain*** — 2017–2018; led student activities and liaised between students and administration.
- ***Chess Tournament, First Place*** — 2022, school-level competition.

CERTIFICATIONS

Two-Day Workshop on LangChain and Multimodal AI Oct 8 – 9, 2026

Dept. of CSE (AI&ML) & CSE, BVRIT Hyderabad College of Engineering for Women

- Hands-on workshop on building LLM-powered applications with LangChain and working with multimodal AI.

SDP Training for Innovators – Startupreneurship Development Sep 21 – Oct 5, 2026

Association of Lady Entrepreneurs of India (ALEAP), RAMP Program

- Completed a 15-day programme at BVRIT Hyderabad, supported by the Ministry of MSME, Govt. of India and the World Bank (certificate issued Oct 6, 2026).

Exploring Cybersecurity Aug 2026

IBM, via Adobe Learning Manager

- Grounding in core cybersecurity concepts to complement AI/ML work on secure, resilient systems.

Fundamentals of Lean Startup Approach – Workshop Aug 8, 2026

Dept. of Entrepreneurship and Management, IIT Hyderabad

- One-day workshop on Lean Startup methodology, assumption validation and early-stage frameworks.

Claude 101 – AI Fundamentals Course Mar 2026

Anthropic

- Claude AI capabilities, artifact creation, responsible AI usage, and real-world applications for research and writing.

Introduction to Generative AI Feb 9, 2026

Simplilearn × Google Cloud (SkillUp) • Certificate Code: 9823927

- Foundations of Generative AI, LLMs, and practical tools like ChatGPT and Gemini.
